Discussed adding Town Forest Trail to Trail Finder app. No action taken

Discussed use of ATV's and snowmobiles on Town roads. Members suggested that alternative woods trails could be made to fulfill current requests for allowing recreational vehicles on Town roads and would avoid the many problems that such use has caused in the past. No action taken other than to advise Selectmen.

Discussed proposed changes to National Environmental Policy Act. General agreement that shorter time window, restricting impact to only direct immediate effects and reducing local community input were seen as detrimental to ability of town to protect our interests. CATHY STRASSER to prepare draft comments on proposed changes to NEPA.

TIM WILLIAMS will reply to NHACC NNU questionnaire
